FROM

No. 4830
111 of 1913.

THE HON'BLE SIR ELLIOT GRAHAM COLVIN, K.C.S.I.,

Chief Commissioner of Ajmer-Merwara.

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA IN THE
FOREIGN DEPARTMENT.

Dated Mount Abu, the 17th October 1913.

SIR,

I have the honour to submit the annual administration report of Ajmer-Merwara for the year 1912-1913, compiled by the Commissioner Mr. A. T. Holme, I.C.S., with my remarks thereon.

I have the honour to be,

SIR,

Your most obedient servant,

E. G. COLVIN,

Chief Commissioner of Ajmer-Merwara.

Remarks by the Honourable the Chief Commissioner, Ajmer-Merwara.

The year was only a moderately good one, the rabi crop being very poor in the Todgarh Tahsil, and the Kharif crop having failed in portions of the Beawar Tahsil.

2. Imperial revenues showed a small surplus of Rs. 45,654.

3. The Excise receipts increased by Rs. 5,641, chiefly under the head of country spirits, in spite of the enhanced rates imposed during the preceding year on country liquor.

4. The Ajmer Municipality are to be congratulated on having at last matured a scheme, which affords good prospects of success for an additional water-supply to the city and on their amicable negotiations with the Bombay, Baroda and Central India Railway authorities in regard to taxation and co-operation (paragraphs 164 to 166); also on the utilisation of the Government grant of Rs. 1,20,000 improving their conservancy system.

5. The year has been noticeable for a great expansion in the number of Co-operative Credit Societies and for the introduction of measures under the Ajmer Taluqdars Loan Regulation (1911). These matters should receive more detailed notice in the report for next year.

By order,

A. D. BANNERMAN, Lt.-Colonel,

First Assistant to the Honble the

Chief Commissioner of Ajmer-Merwara.

REPORT

ON THE

ADMINISTRATION OF AJMER-MERWARA.

FOR

1912-1913.

SECTION I.

GENERAL ADMINISTRATION.

1. The charge of the office of Commissioner, Ajmer-Merwara, was held as Personal.

2. Mr. B. J. Glancy, I.C.S., held the office of Assistant Commissioner, Ajmer, from 1st April 1912 to 11th March 1913, on which date he handed over charge to Mr. D. G. Mackenzie, M.A., I.C.S.

3. Pandit Brij Jivan Lal Sharma, B.A., held charge of the office of Extra Assistant Commissioner, Merwara, throughout the year under report.

4. Lieutenant Colonel W. H. B. Robinson, I.M.S., held charge of the office of Civil Surgeon, Ajmer, from 1st April 1912 to 6th November 1912, on which date he was relieved by Lieutenant-Colonel R. C. MacWatt, F.R.C.S., I.M.S., who continued to hold the appointment to the end of the year.

5. Mr. R. E. Coupland held the office of Superintendent of Police, Ajmer-Merwara, from 1st April 1912 to 14th February 1913, on which date he handed over charge to Mr. L. B. Goad.

6. The total revenue (Imperial and Local) of Ajmer-Merwara for the year amounted to Rs. 17,45,488 as compared with Rs. 14,64,571 last year and the total expenditure was Rs. 15,47,759-2-7 as against Rs. 16,29,562 in 1911-1912. Imperial revenues rose from Rs. 9,64,514 in 1911-12 to Rs. 10,87,448 in the year under report, while the expenditure fell from Rs. 10,99,261 in the preceding year to Rs. 10,41,794 in 1912-13. There was thus a surplus of Rs. 46,654 in the imperial revenues in 1912-13 as compared with a deficit of Rs. 1,34,747 in the year 1911-12. The increase was due to increase in receipts and decrease in expenditure principally under the following heads:—

Receipts.	Rs.
Land Revenue	+ 72,832
Stamps	+ 12,155
Customs	+ 11,255
Interest	+ 6,909
Law and Justice	+ 7,944

SECTION II.

ADMINISTRATION OF THE LAND.

COURT OF WARDS.

Year ending 31st July 1913.

7. Rai Sahib Munsib Gopi Nath held charge of the office of General Manager, Court of Wards, throughout the year.

8. From an agricultural point of view, the year (Sambat 1969) was a poor one. The rainfall was much below the average and not sufficient to fill the tanks or to supply sufficient percolation to wells. Consequently the *barani* or dry crops both in the *khayif* and *vahi* harvests were very poor. The rains in the month of August 1912, however, improved the growth of grass and the crops sown on well land. The prices of agricultural produce which ruled high throughout the year, as also the fodder which was more than sufficient, went a great way to mitigate the stress of the scarcity, so far as the estates and their tenants were concerned.

9. At the beginning of the year there were ten estates under management, viz.:—

1. Masuda, 2. Kalahera-Bogla, 3. Kerot, 4. Goela, 5. Basundni, 6. Richmalian, 7. Kanai Kalan, 8. Sadara, 9. Gangwana, and 10. Rajgarh.

10. The three estates noted in the margin came under management during the year.

1. Pranhera.
2. Bhina.
3. Jharwasa
Bhattani.

11. Thakur Ranjit Singh of Pranhera having been convicted of a criminal offence was declared incapable of managing his estate, under Section 7 (1) (c) (ii) of the Ajmer Government Wards Regulation, I of 1888, and the Pranhera estate came under the Court's management in March 1913.

12. Raja Sadul Singh of Bhina, who had been placed in charge of his estate in April 1912, became seriously ill, and was declared physically unfit to manage his property under Section 7 (1) (c) (i) of the Ajmer Government Wards Regulation. His estate was again placed under the superintendence of the Court of Wards in June 1913.

13. Mr Meherban Ali, Jagirdar of Jharwasa Bhattani, being heavily involved in debt, was declared incapable of managing his property under Section 7 (1) (c) (iv) of the Regulation. His estate came under the Court's supervision on the 14th July 1913.

14. Thus there were 13 estates under the Court's management at the close of the year.

15. The year under report opened with a cash balance of Rs. 86,674 besides Government Promissory notes of the face value of Rs. 3,62,100.

16. The income of the estates under management was Rs. 2,11,944. The total credit including opening balance amounted to Rs. 2,98,618 as detailed below:—

- (3) Rs. 2,000 spent on ceremonies in connection with the *Chhatra* built in memory of the late Rao Bahadur Thakur Bahadur Singh of Masuda and his son Sawai Ram Singh.

19. The expenditure under the head "Public works" includes payment of Rs. 8,554-4 on account of the Bijai Sagar tank at Sheopura, and Rs. 1,187-7-0 in sinking wells in the Masuda estate. The Bijai Sagar tank project was taken in hand in 1911 and finished before the rains of 1912 at a total cost of Rs. 42,885-4-0. In the Kerot estate, necessary repairs to tanks were carried out at a cost of Rs. 1,378-15-2.

27. The following table shows the liabilities on account of the private debts of the estates under management as they stood on the 31st July 1913.

28. The estate of Pranhara came under the management of the Court of Wards in March 1913, with a list of heavy debts, which, on enquiry under the Taluqdars Loan Regulation, II of 1911, were compromised for Rs. 22,591 and have been liquidated since the close of the year by means of a loan advanced by Government under the said Regulation.

29. The debts of the Bhinai and Jharwasa estates are under scrutiny. Proposals to take advantage of the Taluqdars Loan Regulation in order to liquidate these debts are now under consideration.

The following Wards, viz:—

1. Thakur Bijaya Singh of Masuda,

2. Thakur Nathu Singh of Kalahera,

3. Thakur Udai Singh of Kerot,

4. Thakur Udai Singh of Basundri,

5. Thakur Ranjit Singh of Goela,

6. Kunwar Sobhag Singh, younger brother of the Thakur of Goela,

7. Raja Raj Singh of Rajgarh,

8. Raja Kalyan Singh of Gangwana,

continued their studies at the Mayo College throughout the

year, while the following boys:—

1. Kunwar Sawai Singh of Pranhera,

2. Kunwar Zorawar Singh of Pranhera,

3. Thakur Madho Singh of Sadara,

4. Thakur Narain Singh of Kanai Kalan,

received their education in the Kekri Municipal school, their

financial position not permitting their enrolment in the Mayo

College. The general progress reports of all the Wards at the

College were satisfactory.

30. The health of all the Wards with the exception of Kunwar Sobhag Singh and Raja Sadul Singh was good throughout the year. Sobhag Singh and Raja Sadul Singh suffered for about two months from typhoid fever and was placed

under the treatment of the Civil Surgeon, Ajmer.

31. Raja Sadul Singh fell ill in January 1913 and remained at Bhinai

under the treatment of Hakims till the end of April. During the months of

May and June he was under the immediate treatment of the Civil Surgeon,

in the latter's house at Ajmer; but as the case proved hopeless he was allowed

to go back to Bhinai on the 27th June 1913 at the request of his relatives

under the care of an Assistant Surgeon and a nurse. In spite of all that could

be done for him he succumbed to his long illness on 2nd August 1913 at the

early age of 23.

SECTION III.

PROTECTION.

(1) AJMER-MERWARA POLICE. (YEAR ENDING THE 31ST DECEMBER 1912).

Vide Statements Compiled by L. M. Kaye, Esq., Inspector-General of Police, Ajmer-Merwara. Nos. 4 to 100.

32. Mr. R. B. Coupland held charge of the office of Superintendent of Police throughout the year.

INCREASE AND DECREASE IN REPORTED COGNIZABLE CRIME.

33. The total volume of cognizable crime reported in 1912 was 5,419 as compared with 4,730 in 1911 and 3,784 in 1910. These figures include cases reported to the police and also those reported direct to Magistrates. Comparing the figures under each of those heads with the figures for 1911 it will be found that cases reported to the police have increased by 15 per cent. and those reported to Magistrates by 4 per cent.

34. Following the practice of former years a table is given below from which details of the figures for each of the last two years under the main divisions of crime as shown in Statement A can be ascertained:—

Particulars.	1911.						1912.					
	COGNIZABLE.			Non-cog-nizable cases.			COGNIZABLE.			Non-cog-nizable cases.		
	Police.	Magis-terial.	Total.	Police.	Magis-terial.	Total.	Police.	Magis-terial.	Total.	Police.	Magis-terial.	Total.

Class II	95	56	151	108	42	150
Class III	551	40	591	510	22	532
Class IV	1	4	5	2	16	18
Class V	901	286	1,190	852	319	1,171
Total	1,556	389	1,945	1,489	412	1,901
Class VI	2,774	11	2,785	3,514	4	3,518
Grand Total	4,330	400	4,730	3,878	8,608	5,003	416	5,419	2,552	7,971

This statement shows that, once again, the increase in reported crime is entirely confined to cases falling in Class VI, namely, miscellaneous offences which do not come under the Indian Penal Code.

35. In the two years ending December 31st, 1912, the number of such offences has risen from 1,545 to 3,514. This increase is entirely under the sub-head "Public Nuisances." The Superintendent of Police explains the increase for 1912 in the following words:—

"The number of cases of public nuisances depends entirely on the activity or inactivity of the police in enforcing the provisions of Section 34 of the Police Act and of Municipal and Cantonment

Bye-laws. In a district like this where the urban population is such a large percentage of the total population, the effect of such activity affects the crime returns to a remarkable extent. The increased activity of the police in this direction commences from the close of 1909 when plague was rampant throughout the district and my attention was drawn to the comparative neglect of the police in dealing with sanitary and other similar offences. It may be objected that the action taken is unnecessary harassing but in answer to this I would point out that such cases come before Cantonment Magistrates or Honorary Magistrates, that the former have not brought to notice any abuse of authority and that the latter, who are generally inclined to sympathise with petty breaches of sanitary laws, have shown their confidence in police action by convicting 98 per cent. of cases that came before them."

36. This is no doubt quite true; but the number of sanitary offences instituted by the police in Ajmer-Merwara during 1912 stands at 27 per thousand of the total urban population as compared with 3 in the United Provinces as a whole. The great increase in such cases in 1911 was held to be justified by the special circumstances of the year but those same circumstances did not exist in 1912 and the explanation given by the Superintendent of Police hardly meets the case in view of the remarks made in the report for 1911. The matter will form the subject of a separate enquiry.

37. Excluding cases in class VI, the total volume of reported crime shows a decrease of 44 cases or approximately 3 per cent. In view of the conditions which existed in 1911 a somewhat lighter crime return might have been expected for 1912 but in the report for 1911 it was pointed out that the rise in ordinary crime that year had not been nearly as marked as might have been expected, in view of the almost total failure of the monsoon in Ajmer-Merwara, and this was attributed in part to the fact that, for several years immediately preceding 1911, exceptionally good harvests had been obtained. Moreover the figures are swelled by a further increase in cases reported direct to Magistrates.

The incidence of cognizable crime as a whole, excluding false cases, was 106 per 10,000 of population for 1912 as compared with 92 for 1911. The large number of sanitary offences included in the returns is chiefly responsible for those very high figures, however, and, if such cases be eliminated, the incidence for 1912 stands at 38.9 as compared with 39.2 for 1911 and 36.6 for 1910. In the United Provinces the incidence (excluding sanitary offences) was 29 for 1911.

38. The Superintendent of Police attributes the comparatively high crime returns of Ajmer-Merwara to the causes already detailed in the report for 1911, namely:—

- (1) the proportionately large urban population, and
- (2) the great attention paid by the local police to the question of obtaining a full report of crime.

There is little reason to question this explanation and the encouragement which reporting receives from the local police is shown by the fact that constables on beat-duty are declared to have been instrumental in obtaining no less than 32 per cent of the total number of reports laid to the police and the percentage of cases in which a written report was accepted at police-stations, without complainants being called upon to appear in person, rose from 13 to 20. This is all very satisfactory.

39. Cases of non-cognizable crime decreased by 1,326 during the year under report. This decrease was entirely among offences against Municipal Regulations. There was an increase of 609 cases in 1911.

POLICE CASES—ALL CLASSES.

40. The total number of cognizable offences reported to the police during 1912 was 5,003 as compared with 4,330 in 1911. As already mentioned, these

high figures are entirely due to increased vigilance in connection with prosecutions for breaches of sanitary laws in Ajmer itself and the other towns of Ajmer-Merwara. If such cases be excluded the number of offences reported stands at 1,609 for 1912 against 1,668 for the preceding year.

41. No investigation was made into 587 (or 36 per cent.) of the cases reported. In 1911 the number of cases into which no enquiry was made was 636 (or 38 per cent.). It is noticeable that whilst investigation was refused in a larger percentage of cases of housebreaking or burglary enquires into cases of petty theft were proportionately more numerous than in the preceding year and the Superintendent of Police admits that certain members of the investigating staff are still prone to undertake enquiries without consulting the wishes of the complainant, though he adds that, as a whole, the discretion vested in the police to refuse investigation is fairly exercised. The subject calls for further attention but, as mentioned in previous reports, Ajmer-Merwara is not, in this respect, on all fours with regulation provinces and the proportion of cases investigated will always be comparatively high. It is worth noting, too, that, in his report on the administration of the United Provinces Police for the year 1911, the Inspector-General notes that there are indications that the option of investigation is overstrained in those provinces and that cases which should be enquired into are not.

42. The total number of police cases decided during 1912 was 3,905 against 3,175 in the preceding year. Of cases investigated 85 per cent. ended in conviction as compared with 82 per cent. in 1911 and 95 per cent. of the persons arrested by the police were convicted—that percentage being the same as for 1911. If prosecutions instituted for breaches of the sanitary laws (in the majority of which conviction is, practically, a foregone conclusion) be excluded the percentage of cases convicted to investigations stands at 45 for the year under report as compared with the same figure in 1911 and 43 in 1910, and the percentage of persons convicted to arrests at 82 against 84 and 79 in the two preceding years.

43. These figures compare very favourably with the statistics of the United Provinces for the year 1911 and, in consideration of the very large proportion of cases reported which were investigated, may be taken as indicating good work

Class I.—Offences against the State, Public Tranquillity, Safety and Justice.

44. The number of true cases in this class dealt with by the police in 1912 was 16, of which total 11 ended in conviction while 2 were still undertrial at the close of the year.

45. Two offences relating to coin are returned for 1912 both of which were prosecuted to conviction. One was a case in which a man endeavoured to put into circulation a number of counterfeit two-anna pieces. He was convicted but the origin of the coins could not be discovered. The other was a petty case in which a piece coated with mercury was passed as an eight anna piece.

46. Five escapes from custody occurred during the year under report as compared with 1 in the preceding year. In only one of those cases were the police to blame, however, and all but one of the absconders were re-arrested and convicted. Two constables were punished departmentally in connection with that one case.

47. Six cases of rioting or unlawful assembly were dealt with during the year, three of which ended in conviction while 1 was withdrawn and 1 was still pending at the close of 1912.

48. The only case of any importance was a riot which took place at Bhinai in connection with the Holi. Some time before that festival certain Mahomedans residing at Bhinai had objected to the route along which the Hindus proposed to take their Holi procession and to the singing of obscene songs. The matter was reported to the district authorities with the result that a route had been laid down for that procession which would avoid offence and interference. In spite of this, however, when the time came the Mahomedans made an entirely unwarranted attack on the Hindus and drove them away. There was more than a suspicion that the local police were mixed up in this affair and, as they failed

to take proper action after the riot had occurred, the Sub-Inspector was punished departmentally. Nineteen persons were sent up for trial for participating in the riot and were, with one exception, sentenced to various terms of imprisonment and fine.

None of the other cases were of special interest or called for detailed notice.

Class II.—Serious offences against the person.

49. Ninety-nine cases falling in this class were dealt with by the police in 1912 as compared with 88 in the preceding year. Fifty-three of those cases came before the Courts with the result that 35 were convicted, 13 acquitted and 5 were still under trial at the close of the year.

50. Cases of murder numbered 9 as compared with 10 in the preceding year. In five of those cases the victims were prostitutes who were strangled and robbed of their ornaments by persons who visited them at their houses. Two similar cases had taken place before the close of 1911 and the failure of the police to detect the perpetrators of any of those crimes up to August 1912 had caused a considerable amount of uneasiness in Ajmer. The gang which ultimately proved to have been responsible for at least three of those murders became emboldened by this and was finally accounted for by the police in connection with the murder of a prostitute named Mussamat Dhuli in August 1912. As a result two men and a woman were sent up for trial whilst a third man was made an approver. Those three persons were convicted by the Sessions Judge but, on appeal to the Chief Commissioner, the conviction was set aside in the case of the two men. Subsequently the approver was himself convicted under section 404, Indian Penal Code, for dishonest possession of the ornaments of a woman who had been murdered in the previous April. In addition to that gang there would appear to have been another man committing murders of the same type unless, indeed, as is possibly the case, he belonged to the same gang but was not named by his accomplices for some special reason.

51. That man attempted to murder yet another woman of the same class as the other victims, in September 1912, but failed in his object and the injured woman subsequently gave a full description of him to the police. It then transpired that a man of the same description had been connected with murders which had occurred in the previous June and in October 1911 but had not been traced. Further search was made for him in connection with this case but it has so far proved unavailing. Every precaution has been taken to ensure that immediate information is given to the police if a man of his description visits any woman of the unfortunate class but the Superintendent of Police is convinced that he was not a resident of Ajmer and as the offer of rewards and the publication of his descriptive roll in Police Gazettes has failed to elicit any further clue there is not much hope that he will now be traced. Since that last case no more murders of the same type have occurred in Ajmer and there is little doubt that the gang already mentioned were responsible for most if not all of those murders.

52. No other cases in this class call for special mention or presented any extraordinary features.

Class III.—Serious offences against person and property or against property only.

53. The total number of true cases of this class dealt with by the police in the year under report was 436 against 541 in 1911. Two hundred and eighty-seven of those cases were not investigated and, of the remainder, 63 were sent up for trial with the result that 52 ended in conviction, 6 in acquittal and 5 were still pending at the close of the year.

54. The number of daktaris returned for 1912 is six as compared with ten in the preceding year. These were all attacks on travellers journeying along unfrequented roads and village bye-paths. Three of those daktaris occurred in the course of one week, in January, in the Masuda Circle. Sansis of Mewar were once again suspected and, on information being received that a

large gang of that tribe was encamped just across the border; the Sub-Inspector of Alasuda prevailed upon the Mewar Police to raid that encampment with the result that much suspicious property was recovered. Part of it was claimed by the complainants in these cases but the identification was not sufficiently convincing to justify those cases being sent up for trial.

55. In another case which occurred in the month of April between the Deoli Cantonment and a village in Jaiपुर State the complainant professed to recognize, as the perpetrators, some Kanjars who were encamped in Jaiपुर territory close by. Before action could be taken, however, the gang moved off and could not subsequently be traced. The Superintendent of Police points out that there once again the refusal of the Jaiपुर Durbar to allow the Ajmer-Mewar Police to cross the border in the course of their investigations or to make any arrests without previously obtaining a *parwana* seriously hampered the investigation of this case and is much to be deprecated.

56. From May to December the district remained immune from this form of crime but on December 2nd a party of Mahajans were set upon in one of the passes leading from Marwar to Lodgarh by a gang of men armed with guns, bows and arrows, and swords and were dispossessed of all their property. In spite of a very full and careful enquiry this case, too, remained undetected though it was strongly suspected to be the work of certain Minas of the State who were also believed to be responsible for two serious daktas which took place about that same time in the Sojat police circle (Marwar) in villages at no great distance from the scene of this occurrence.

57. The lack of success in dealing with these cases is much to be regretted, but as the Superintendent of Police remarks the return for 1912 proves yet once again how necessary it is that the police of the States which surround Ajmer-Mewar should be permitted to co-operate with the Ajmer Police as freely as the police of districts in British India co-operate with one another and that it is the lack of such co-operation which is mainly responsible for the greater portion of the daktas which occur in Ajmer-Mewar. Since the commencement of 1913 both the Udaipur and Jaiपुर Durbars have been addressed yet once again on this subject and it is to be hoped that the matter will receive more favourable consideration on their part than has been the case in the past.

58. Twelve cases of robbery are returned for 1912 as compared with 4 in the preceding year. Three of those cases ended in conviction, but the remainder were untraced.

59. The sudden rise in this serious form of crime is not satisfactory, but it must be borne in mind that the line separating robbery from daktas is a very thin one and that the returns show a considerable decrease in daktas. For some years, too, the number of robberies returned has been extraordinarily low and whereas, from 1906 to 1908, the average was 16 cases per annum, from 1909 to 1911 that average dwindled to five.

60. The Superintendent of Police has offered no explanation of these variations but the return for 1912 appears to have been swelled by three cases which occurred within half-a-mile of the Marwar border immediately after the Pushkar fair and by two technical robberies in which women suffered hurt from burglars at night. All of those cases remained undetected.

61. The only other form of crime included in Class III which calls for special notice is housebreaking or burglary (serial No. 29). The number of true cases falling in that category stands at 472 for 1912 as compared with 516 in 1911.

62. The Superintendent of Police points out that the decrease occurred chiefly in the towns (Ajmer, Bawar and Nasirabad) where a regular system of patrolling is in force and attributes it to more efficient patrolling; the figures support this contention. The success met with in cases investigated has not been very marked but compares fairly favourably with the return for 1911. Of 159 cases investigated 58 came before the Courts and, of 53 tried out, 48 ended in conviction. Moreover in a considerable number of cases property stolen by burglars was recovered from receivers which were prosecuted to conviction under section 411, Indian Penal Code. Altogether, though there has been no very marked success in dealing with this form of crime the work has been up to the average and compares favourably with that of the United

Provinces Police. No cases of special importance occurred in the year under report.

Class IV.—Minor offences against the person.

63. Only two cases are returned under this class for 1912, of which one was compounded whilst the other was still pending at the close of that year.

Class V.—Minor offences against property.

64. Eight hundred and twenty-seven cases of this class were dealt with by the police in the year under report as compared with 848 in the preceding year. Investigation was made into 537 of those cases with the result that 311 were sent up for trial, 280 being convicted, 20 acquitted and 11 being still pending at the close of 1912.

65. Thefts of cattle rose from 52 to 70. Eight of those cases are returned as not enquired into. Of the remainder, 18 were sent up for trial with the result that 15 ended in conviction, and 2 in acquittal whilst 1 was still pending at the close of the year.

66. In addition to cattle-thieves convicted for the original offence 13 receivers were convicted under sections 411 to 414, Indian Penal Code, so that the number of convictions for cattle-thieving and cognate offences was 28. This is a slightly higher figure than in the two previous years.

67. On the other hand the number of cattle reported to have strayed which were never recovered rose from 176 to 226 and there can be little doubt that a considerable number of those animals were stolen.

68. The special difficulties met with by the Ajmer-Merwara Police in the matter of following up and tracing lost cattle have been dealt with fully in previous reports but as an illustration of this, it may be mentioned that the Superintendent of Police states that in no less than 15 of the cases returned as undetected in 1912 the stolen cattle were subsequently traced to adjacent Native States. In such circumstances it is of the greatest importance that when cases are successfully worked out, really deterrent sentences should be passed. That this has not hitherto been the case is shown by the following extract from the report of the Superintendent of Police:—

“In cattle-theft cases the sentences are peculiarly lenient, the average sentence inflicted in 1912 on persons convicted of the original offence of theft or burglary in which cattle were stolen being only four months' imprisonment and Rs 7 fine, while the average sentence inflicted in cases of unlawful possession of stolen cattle was only 1½ months imprisonment and Rs. 12 fine.”

The attention of the District Magistrate has been drawn to these facts. None of the other offences in this class call for special notice.

Class VI.—Other offences not specified above.

69. The number of cases of this class increased from 2,811 to 3,531. That increase was confined to offences falling under the head of “Public Nuisances” and has already been noticed in paragraph 3 of this report.

70. All but seven of those cases came before the Courts with the result that 3,429 were convicted, 68 acquitted or discharged and 36 were still under trial at the close of the year.

71. Prosecutions for vagrancy and bad livelihood numbered 38 as compared with 47 in 1911. Only 4 of those cases came within the purview of section 110 of the Code of Criminal Procedure while the remainder were prosecutions for vagrancy under section 109 of that Code.

72. All the four persons proceeded against under section 110 were ordered to furnish security, the average amount demanded being Rs. 237 with an alternative of 13½ months' imprisonment. Security was furnished by two of those persons, the other two going to prison in default.

73. Of the prosecutions under section 109, Criminal Procedure Code, 22 resulted in security being demanded, while in 5 cases the persons concerned were discharged and 8 were still under trial at the close of the year.

74. The average security demanded in those cases was Rs. 75 with an alternative of 7 months' imprisonment; security was furnished in 8 cases.

75. The police were not quite as successful in such prosecutions as in former years and the Superintendent of Police refers to the injudicious action of one of his subordinates in proceeding on insufficient grounds against certain Naks of Ajmer who were found masquerading as Sadhus in Beawar. It is desirable that the institution of such prosecutions should be kept by the Superintendent of Police in his own hands.

76. The very large number of suspicious strangers who have been successfully prosecuted under the preventive sections during the last few years has, however, undoubtedly had a marked effect on the crime returns of this district and is probably responsible to no inconsiderable extent for the decrease in organized heinous crime and cases of housebreaking which has taken place in the last six years.

77. Prosecutions for breaches of the Excise and Opium Acts increased from 36 to 53. All but 4 of those cases resulted in conviction.

78. Several of them were cases in connection with the illicit importation and sale of cocaine and one important case of opium smuggling was detected which resulted in the arrest and conviction of a smuggler with 13½ seers of opium in his possession. The police are stated to have earned a considerably larger sum in rewards than in the previous year but the Superintendent of Police has failed to specify the exact amount.

79. The work under this head shows a marked improvement and may be looked on as very satisfactory.

Property stolen and recovered.

80. The amount of property stolen was valued at Rs. 65,444 or Rs. 17,338 more than in 1911. The percentage of recovery, on the other hand, fell from 25 to 12.

81. The variation between the figures of the two years is considerable but there was an even greater variation between the figures of 1910 and 1911; losses in the former year totalling Rs. 99,487 and the percentage of recovery being 13.

82. So many factors have to be taken into consideration when analyzing statistics under this head, however, that it has long been a generally accepted axiom that too much reliance should not be placed on such returns.

IDENTIFICATION BY MEANS OF FINGER IMPRESSIONS.

83. The finger-impression ships of 121 persons were sent to the Bureau for search during the year under report as compared with 204 in the preceding year. Thirty-one of those ships resulted in the identity of previously-convicted offenders being established. There has been a considerable falling off both in the number of ships sent for search and in the percentage which resulted in the identity of the persons concerned being established.

PROCLAIMED OFFENDERS.

84. The names of 61 proclaimed offenders figured on the registers of this district at the commencement of 1912. Thirteen names were added during the year making a total of 74 for disposal. Fifteen of those persons were arrested and the names of seven others were expunged for special reasons leaving a closing balance of 52.

85. The result of the special instructions given by the Superintendent of Police to Inspectors and Sub-Inspectors, to which reference was made in the report for 1911, is very apparent as the number of arrests effected in 1912 exceeds the combined total for the two preceding years. It is to be hoped that this import-ant subject will continue to receive the attention which it merits.

SURVEILLANCE OVER PERSONS WHOSE HISTORY-SHEETS HAVE BEEN PREPARED.

86. The number of history-sheets still maintained at the close of 1911 was 530. In the annual report for 1911 that number was quoted as 483 but it would appear that the correct number is as now stated. One hundred and eighty-seven of those history sheets were discontinued for various causes, during 1912, but 118 new sheets were added.

87. At the close of the year under report therefore 461 history-sheets were still maintained and, of this number, 36 referred to criminals who had been re-convicted during the year.

88. The number of persons who figured on the surveillance register at the close of 1912 was 94 and the percentage of persons whose history-sheets were maintained but who were themselves untraced was 15 as compared with 17 at the close of the preceding year. The difficulties met with by the Ajmer-Merwara Police in maintaining effective supervision over such criminals has been fully dealt with in previous reports and, until adjoining States will introduce the system in force in British India and will see that it is acted up to by their police, there is little hope of improvement in this respect.

CO-OPERATION WITH THE POLICE OF NATIVE STATES.

89. The Superintendent of Police reports that relations with the police-officials of the Kishtengarh State and Shapurra Chieftship continued to be all that could be desired during 1912 and that a certain amount of assistance was received from the Marwar Police. He still complains of lack of co-operation on the part of the Jampur and Merwar States officials but it is to be hoped that representations which have recently been made to those Durbars may result in an improvement in the relations with the police-officials of those States also.

STRENGTH, COST AND EMPLOYMENT OF THE POLICE.

90. An increase of 1 Head Constable and 11 Constables took place in the year under report. This was in connection with the relief of the Kekri Municipality from all police charges and the substitution of constabulary for the Chaukidari force formerly maintained in that town. All Municipalities in Ajmer-Merwara have now been relieved of police charges. The actual cost of the force rose from Rs. 1,90,309 to Rs. 1,98,678. This increase was due, in part, to the addition to the force referred to above and in part, to better recruitment.

REWARDS AND PUNISHMENTS.

91. One hundred and twenty-one members of the force were rewarded in 1912 as compared with 122 in the preceding year. The total amount paid in rewards, from all sources was Rs. 1,719 : in 1911 it was Rs. 1,794. This variation does not call for any explanation.

92. The total number of punishments inflicted was 38 as compared with 39 in 1911 and included 3 judicial punishments, 17 dismissals and 18 other departmental punishments.

93. It is satisfactory to note that the punishment-roll is once again not a heavy one. In no case was it found necessary to interfere with the order of the Superintendent of Police on appeal and Mr. Coupland is to be congratulated on the discrimination he has shown in taking up departmental cases against his subordinates.

HEALTH.

94. The health of the force was not quite so good as in the preceding year but compared favourably with that for 1910. Nine deaths occurred in 1912 and admissions to hospital totalled 49 per cent. of the actual strength. In 1911 the figures were 4 and 37 respectively.

CASUALTIES.

The following casualties occurred during the year:—

18	(1) Pension or gratuity
68	(2) Resignation without pension or gratuity
19	(3) Dismissal
52	(4) Discharge otherwise than above
...	(5) Desertion
9	(6) Death
161	

95. These figures are slightly in advance of those for 1911 (when casualties totalled 151) and this is partly due to the increase in deaths and partly to an increase in the number of recruits who were discharged within their probationary period as unlikely to make efficient police-officers. As regards this latter cause it was almost inevitable that there should be such an increase in view of the large number of recruits enlisted in 1911.

96. On the other hand it is satisfactory to note that there has been, yet once again, a fall in the number of resignations, even though it is only a small one, and that the prophecy of the Superintendent of Police, as recorded in his report for 1911, that resignations would increase considerably in 1912 has not been fulfilled. It must be admitted, however, that recruiting was not nearly as brisk as in the preceding year and the short rainfall of 1912 may possibly have induced some recruits to stay on who would otherwise have returned to agricultural pursuits.

GENERAL REMARKS.

97. The work of the police has once again been satisfactory. In dealing with some of the more serious forms of crime the success met with has not been very marked but the figures as a whole compare favourably with those of former years and there are numerous satisfactory features in the year's work, not the least of which are the decrease in cases of house-breaking in the larger towns, the capture of the gang of murderers in Ajmer and the low dakaiti return.

98. The conduct and discipline of the force have been excellent and the punishment-roll is, once again, a short one.

99. All police-stations were inspected at least once by a gazetted officer and twice by a Circle-Inspector.

100. The most important building project undertaken during the year was the erection of a new police-station at Todgarh. Family quarters have now been added to all but the largest police-stations and the comfort of subordinate officers has been much increased thereby.

101. Since the commencement of 1913 Mr. Coupland's long connection with Ajmer-Merwara has come to an end as he has proceeded on long leave and will not return to Ajmer-Merwara at the end of it.

102. The change he has effected in the work, conduct and general bearing of the Ajmer-Merwara Police since he first assumed charge of that Force in 1906 has been very marked and he is fully entitled to the thanks of the Administration for the excellent work he has done and the great improvement he has achieved.

121. The following Courts were inspected by the Commissioner :—(1) Cantonment Magistrate, Nasirabad, (2) Extra Assistant Commissioner, III, Kakeri, (3) Deputy Magistrate, Beawar, (4) Tahsildar, Beawar, (5) Naib Tahsildar, Beawar, (6) Honorary Magistrate, Kharwa.

(3) CIVIL JUSTICE (YEAR ENDING 31ST DECEMBER 1912.)

122. The number of Courts during the year was 29 excluding the Court of (Vide State-ments Nos. 17 to 25).

123. The total number of suits (including miscellaneous suits) was 8,844 as against 8,525 in the year 1911, showing an increase of 319.

124. The total value of civil suits instituted this year was Rs. 7,63,318 as against Rs. 4,19,738 in 1911.

125. Suits of all kinds, the value of which did not exceed Rs. 50, numbered 3,930.

126. The total number of suits of all kinds for disposal including arrears was 10,509. The number of contested suits disposed of was 1,106; 113 suits were decided by arbitration and 5,356 without any contest—the number disposed of without trial was 2,063; and 78 suits were transferred to other Courts. The pending file at the close of the year was 1,793 as compared with 1,665 in the preceding year, and of the former 309 suits had been pending for more than three months. The average duration of contested civil suits was 170.00 days and that of uncontested suits 51.

Appeal—

127. On the appellate side, there were 408 appeals from decrees and orders, and the pending file at the close of the year was 221 against 128 in the preceding-

ing year; the average duration of appeals was 208.00 days against 178.00 in the preceding year.

128. The number of applications for execution of decrees was 15,227 against 14,465 in 1911. The number pending at the end of the year was 2,260 as compared with 2,301 in the last year.

129. No judgment debtor was imprisoned in execution of a decree during the year. (4) REGISTRATION (YEAR ENDING THE 31ST DECEMBER 1912).

131. The total number of all classes of documents presented for registration during the year under report was 6,368 as against 4,677 in the preceding year. The increase of 1,691 which occurred chiefly under the head of Book No. I, that is to say, non-testamentary documents relating to immovable property, may be accounted for by the execution of a larger number of documents in consequence of the unsatisfactory harvests of the year, coupled with the increased activity of the Co-operative Credit Societies and the pressure for punctual repayment of instalments and demand of better security on the part of money lenders, purchase of more land by the cultivators and Mahajans and realization of the benefits of registration by the people in Merwara.

132. Out of the total number of documents presented for registration, 3,309 documents or 51.96 per cent. of the whole as against 55.27 per cent. in the preceding year were registered by the Sub-Registrar, Ajmer.

133. The area of agricultural land transferred by sale during the year was 11,128 bighas as compared with 7,831 bighas in the year 1911, showing the large increase of 3,297 bighas. Similarly the area of agricultural land transferred by mortgage also shows the very remarkable increase of 5,984 bighas, i.e., from 13,227 bighas in the preceding year to 19,211 bighas in the year under report. In 1910 the corresponding figures were: area sold 5,424 bighas, area mortgaged 7,580 bighas.

134. The total value of the land transferred by sale and mortgage amounted to Rs. 7,02,479 or Rs. 1,62,821 more than in the preceding year.

135. The total receipts and expenditure of the year amounted to Rs. 11,466 and Rs. 3,595 as against Rs. 9,138 and Rs. 2,528, respectively, in 1911 showing a surplus of Rs. 7,871.

136. The system of recording thumb impressions worked well throughout the year.

(5) MUNICIPALITIES (YEAR ENDING THE 31ST MARCH 1913).

ality.

140. If refunds are excluded, which amounted to Rs. 41,189 in 1911-1912 and Rs. 46,682 in 1912-1913, the figures for the two years compare as below :—

	1911-1912.	1912-1913.	Difference.
Income	Rs. 2,42,077	Rs. 3,49,671	Rs. +1,07,594
Expenditure	Rs. 2,82,217	Rs. 2,50,077	Rs. — 32,140

141. The increase in receipts is mainly due to the Government grant made to the Municipality for sanitary improvements.

142. The decrease in expenditure is chiefly under the heads "Police," "Conservancy," "Roads," and "other items."

143. There was no expenditure under head "Police." Under head "Conservancy" the decrease is due to no abnormal expenditure having been incurred during the year.

144. The decrease under head "Roads" is due to no extraordinary repairs having been executed during the year.

145. The gross and net receipts from Octroi in the two years are shown below :—

	1911-1912	1912-1913
Gross.	Rs. 1,94,438	Rs. 2,10,085
Net.	Rs. 1,53,249	Rs. 1,63,403
	+ 15,647	+ 10,154

146. The increase of Rs. 15,647 in gross receipts has occurred chiefly under the items "other articles of food," "Sugar" and "Grains," and may be ascribed to large imports in consequence of the year being a favourable one for marriages.

147. The total disbursements during the year under report amounted to Rs. 2,96,759 against Rs. 3,23,406 in the previous year.

148. The variations chiefly occurred under the following heads :—

	Rs.	Increase.	Rs.
Refunds	—	5,493	—
Police	6,890	—	—
Water-supply	20,652	—	—
Conservancy	34,780	—	—
Veterinary charges	1,628	—	—
Roads	3,397	—	—
Public Instruction	1,590	—	—
Other items	12,166	—	—

149. The decrease under heads "Police," "Conservancy," "Roads," and "other items" has already been explained.

150. The increase under head "Refunds" may be attributed to the increase in Octroi receipts.

151. The increase of Rs. 20,652 under heads "Water-supply" is chiefly due to pumping tests at Sagarnati, which amounted to Rs. 16,563, and to pumping water from Buddha Pushkar for the greater part of the year.

152. The increase of Rs. 1,628 under head "Veterinary charges" is due to the Committee's contribution to the Veterinary shoeing forge for two years, at Rs. 820 per annum.

153. The increase under head "Public Instruction" is chiefly due to the payment of contribution towards the Dayanand Assam Anglo Vedic High School and a gratuity to Rao Sahib Pandit Narsingh Das, late Head Master-City Branch School.

154. A sum of Rs. 16,790 was paid during the year towards the liquidation of Government loans.

155. The balance of the loan still due from the Municipality amounted to Rs. 1,93,503 at the end of the year.

156. The incidence of taxation rose from Rs. 1-12-4 to Rs. 1-14-2.
157. The management of the Ajmer Water Works was in the hands of Mr. P. A. L. Cantin, Executive Engineer, Ajmer Provincial Division, with Mr. J. Gorman, Assistant Engineer and Sub-Divisional Officer, Ajmer, to assist him.
158. The first rainfall, registered on the 9th July 1912, was 52 inches when the Baysagar lake rose from .99 feet, the lowest point reached, to 3.22 feet, representing a rise of 2.23 feet. From this date the water level began to rise.
159. The total depth of the Baysagar between the sill of the lowest sluice and full supply level is 24 feet, and the highest point recorded after the hot weather was 15.10 feet on 1st September 1912.
160. The water level of the lake on the 1st April 1912 was 7.48 feet, so that between this and the 9th July 1912, the date of the first rainfall registered, the water level dropped 6.49 feet, as against 4.24 feet registered from 1st April to 13th June of the previous year.
161. The total rainfall between June and September 1912 was only 14.08 inches, while for the whole year under report it was 15.09 inches, the normal fall being 21.09 inches.
162. The supply of water by gravitation being insufficient, pumping had to be resorted to for 194 days in July 1912 and from September 1912 to March 1913.
163. In addition to this, the Railway had to be called in to help and the water supplied by them from Budha Pushkar amounted to 24.06 million gallons.
164. The question of taxing the Railway for indirect services rendered to them by the Municipality has been concluded by an amicable arrangement according to which the Railway will pay a fixed sum annually for a period of years.
165. From the tests carried out in the Sagarmati Valley there is good reason to hope for success in an additional water-supply from that valley. An estimate of the cost amounting to Rs. 4,39,085 has been prepared by the Superintending Engineer, Rajputana, and is under the consideration of the Committee who propose to make an application to Government for a loan with a view to starting work as soon as possible.
166. The Committee are likely to enter into a partnership with the Railway in regard to all existing and future water schemes to the advantage of both parties, but the completion of the Sagarmati valley project will not be delayed pending the settlement of this question.
167. The scheme for replacing so far as practicable the present bullock power in Conservancy system by steam traction has been sanctioned by the Local Administration and it is proposed to utilize the whole of the Government grant of Rs. 1,20,000 in this scheme, and in the renewal of rolling stock which it urgently required.
168. The number of recorded births rose from 1,572 to 1,694 and that of deaths decreased from 3,418 to 2,520.
169. The birth and death rate per mille of population was 19.63 and 32.22 against 18.22 and 39.61 respectively in the preceding year.
170. The mortality among children under five years of age was 1,246 (44.18 per cent. of the total mortality) against 1,751 in the previous year.
171. 13 deaths from cholera and 28 from small-pox were reported.
172. The total number of vaccinations performed in the Ajmer town and suburbs was 2,692 against 3,935 in the previous year. The number of primary vaccinations was 2,599 and of re-vaccinations 93 against 3,458 and 477 respectively last year.
- 173-V. Forty-one hoppers and 10 band carts were received during the year under report. One new five seated galvanized iron urinal and one new four seated galvanized iron latrine have been provided in the city. The number of Conservancy carts, etc., is insufficient.

173. The sanitary arrangements which were insufficient and backward are receiving attention.

174. There was no change in the Municipal boundaries during the year.
175. During the year under report the Committee held 21 meetings of which 12 were special and 9 ordinary as compared with 7 special and 5 ordinary in 1911-12.

176. The total net income of the year amounted to Rs. 91,189 as against Rs. 70,531 in 1911-12 and the expenditure to Rs. 47,000 as against Rs. 77,184. The closing balance amounted to Rs. 83,131 exclusive of Rs. 10,000 invested in Government paper.

177. The increase of Rs. 20,658 in the income is chiefly due to the grant of Rs. 25,000 from Government for sanitary purposes, but the head Octroi shows a decrease of Rs. 3,115, which is mainly due to the fact that "Gur" that was imported last year was exported this year.

178. The incidence of Octroi taxation on a population of 22,800 was Rs. 2-11-3 per head as against Rs. 2-13-4 in the year 1911-12.

179. Compared with the previous year the expenditure shows a decrease of Rs. 20,184 which occurred chiefly under the heads "General Administration," "Police," and "Roads."

180. The Water-Supply Scheme for Beawar from Jalia drawn up by the Superintending Engineer, Rajputana, amounting to Rs. 77,541 has been approved by the Municipal Committee, Beawar, and the Local Government has granted Rs. 25,000 towards this scheme out of the Government grant of 1½ lakhs allotted to Ajmer-Merwar for sanitary purposes.

185. The increase of Rs. 4,838 in receipts is mainly under head Octroi which is the chief source of income of the Municipality and shows an increase of Rs. 4,677. This increase is chiefly due to a considerable increase in the imports of commodities owing to the celebration of a large number of marriages and the holding of funeral feasts this year, as also to the introduction of the new Octroi schedule.

186. The decrease of Rs. 545 in expenditure was mainly under heads "Police," "Conservancy," and "Garden and Arboriculture."
187. The Committee have been relieved of all expenses incurred in connection with the maintenance of the Municipal Police from 1st May 1912.

[illegible]

210. The exports also rose in both districts.

Year 1911.

1911-1912.

The chief works carried out during the year were—

Making additions and alterations to the District Court at Ajmer.

Providing iron gratings and shelves to Barracks Nos. 18 and 19 in the

Central Jail, Ajmer.

Constructing family quarters at Rupnagar Police out-post.

Constructing new record rooms and dais for the Naib Tahsildar's Court at Beawar.

Converting the old-Veterinary School building at Ajmer into a Normal School.

Constructing additional out houses for Bandanwara Inspection Bungalow.

213. The expenditure on communications amounted to Rs. 1,30,602. Roadside plantation.

214. At the beginning of the year the total length of roads with avenues was 70 miles 1 furlong.

215. During the year 6 miles 3 furlongs of Imperial and 4 miles 4 furlongs of District Fund roads were planted with young trees, thereby making a total length of 81 miles of avenue roads. The number of trees planted to fill up blankets was 2,252. The total cost of planting and maintaining the trees on both Imperial and District Fund roads amounted to Rs. 6,013 against Rs. 4,699 in the previous year. The increase in expenditure is chiefly due to the larger supply of iron tree guards on the Neemuch-Nasirabad road, and to the additional cost incurred on fodder owing to the scarcity which was very acute from 1st April to 30th June 1912, on Ajmer-Kishengarh, Nasirabad-Deoli, and Beawar-Sendra roads.

216. Four water tanks for the Imperial roads were prepared and charged to this year's accounts.

217. The expenditure on Imperial roads was Rs. 3,984 and on District Fund roads Rs. 2,029.

218. The cost incurred on the maintenance of nurseries was Rs. 312 from Imperial and Rs. 15 from the District Fund.

219. The income derived from the sale of dry wood, grass, and babul pods, etc., amounted to Rs. 493 against Rs. 358 in the preceding year.

220. The number of rain-gauges maintained in Ajmer-Merwara during the year 1912-1913 was 86 (including 28 rain-gauges kept in the Public Works Department stores which are only used during the rainy season for recording rainfall at certain tanks) against 58 shown in the report for 1911-1912. All the rain-gauges were inspected from time to time by the district officers and found in efficient condition. All except one are Symon's gauges.

SECTION V.

REVENUE AND FINANCE.

A.—IMPERIAL.

(1) Land and water Revenue.

221. The year under report, which includes the accounts for the Rabi harvest of 1319 Fasi and the Kharif of 1320 Fasi, was on the whole comparatively more favourable than its predecessor, the average rainfall of the year being 14.46 inches (*vide* table 31) against the normal for the district of 19.22 inches. The outturn of the Rabi harvest was generally poor owing to the scanty rains of the previous year but that of the Kharif harvest was fair to good. Remissions of a portion of the revenue demand for the former harvest had accordingly to be granted.

222. The system of fluctuating assessment in the 46 villages selected at the time of the settlement worked well, and the villagers' liking for it showed signs of increasing, as 4 villages under fixed assessment have applied to have the variable system extended to them.

223. The practical results, both in regard to the area sown and the revenue realized, show a decrease when compared with the standard fixed at the time of the settlement. This is due to the scanty rainfall of the year, specially in the Beawar Tahsil.

224. The following table compares, for the variable villages, the revenue actually assessed for the year 1320 Fasi with the standard fixed at the settlement:—

Tahsil.	STANDARD.			ACTUALS FOR 1320 FASLI.			Average crop rate for tank assessed 1320 Fasi.

225. The current demand on account of land and water revenue for the year 1911-12, the increase of which, etc., *vide* Demand, collected, amounted to Rs. 3,71,826 against Rs. 3,49,435 for the year 1911-12, the increase of which, etc., *vide* Demand, collected, Rs. 22,391 being chiefly due to a larger area having been cultivated and assessed during the year on account of better rainfall. Including the arrears of No. 32 of previous years the total demand aggregated Rs. 4,67,384. Out of this Rs. 3,66,270 were realized, as against Rs. 2,93,196 in the previous year as shown below:—

1911-12.		1912-13.	
Rs.	Rs.	Rs.	Rs.
Arrears	27,958	47,613	3,18,657
Revenue of the year	2,93,196	3,66,270	

226. The figures for 1912-13 include Rs. 44-2-7-2 on account of surplus collections of previous years taken into account during the year under report and exclude Rs. 22-10-3 collected as surplus to be taken into account next year.

227. During the year under report the total amount remitted was Rs. 66,837, of which Rs. 3,000 represented suspended arrears long outstanding against the Istimardars of Jotayan, Arwar and Koda. The balance, Rs. 63,837, represents the demand of Kharif and Rabi harvests of 1319 Fasi (1912 A.D.) which was remitted on account of insufficient rainfall.

Prices

228. The retail prices of the principal food grains (barley and maize) varied in April 1912 from 11 seers 12 chhataks in the Ajmer Tahsil to 14 seers in Beawar. 229. In May to September they remained between 10 seers 9 chhataks and 14 seers 14 chhataks. In October the prices ranged from 12 seers 14 chhataks to 14 seers 4 chhataks, while from November 1912 to the end of the year they showed a slight tendency to fall.

230. In Todgarh Tahsil, where conditions were unfavourable, arrangements were made for the distribution of gratuitous relief on a restricted scale to deserving persons. 231. The table below compares with the two previous years the results of the enumeration of agricultural stock in Ajmer-Merwara during the year under report:—

	1910-11.	1911-12.	1912-13.
Cows and bullocks	1,76,994	1,90,047	1,88,563
Buffaloes	19,850	23,183	26,494
Sheep and goats	2,77,447	2,76,188	2,29,843

232. There was no epidemic disease among the cattle throughout the year except foot and mouth disease and small-pox, which prevailed in the Beawar Tahsil. 233. Rodder for cattle was insufficient in Merwara and consequently a grass depot was opened at Beawar, from which 11,500 maunds of grass were distributed as takavi to the agricultural classes.

234. Local forest reserves were also thrown open for grazing cattle. 235. Boundary pillars and survey and plot marks were inspected by the Revenue officials from time to time: 8 boundary pillars were found damaged and steps were taken to put them in order. The number of boundary cases pending from the last year was 9, and 95 cases were instituted during the year under report making a total of 104. Of these 92 were disposed of, leaving 12 pending at the close of the year which it is proposed to make over to a special Boundary Settlement Officer for settlement during the ensuing cold weather.

236. In accordance with the rules regarding the correct maintenance of the new khassas and maps, 4,544 corrections were made during the year under report. The Tahsildars and Naib Tahsildars constantly made inspecting tours in the district and spent on an average 107 days in the Ajmer Tahsil, and 129 and 150 days in the Beawar and Todgarh Tahsils respectively.

237. Column 3.—A note against the figure for each Court should be made in the column of remarks showing separately how many accused persons were transferred to other provinces, not in columns 5 and 6, against the Court making the reference. Against the Court receiving the reference they will be shown as convicted or acquitted, according to the orders passed by it, or as pending if orders have not been passed.

Cases in which the accused has absconded before arrest or has escaped from custody should be taken off the file till the persons implicated appear again.

NOTES.—Column 2.—Total of columns 3 to 12. Cases transferred from one Court to another in the same Province will appear only against the Court by which decided, or in which pending at the end of the year, if not decided.

The words "Applicants for revision" in the heading of this column should be held to include only accused persons on whose behalf an application for revision is made or in whose interest the Magistrate or Judge may take steps to obtain revision on his own motion. Where such application is made, or such steps are taken, on behalf of a complainant, the fact should be noted, with the number of complainants concerned, in the column of Remarks. In the latter case, the accused persons against whom the application is made, though not appearing in this column, will fall into their proper places in columns 3 to 13, according to the result of such application. This note is held to apply also to cases dealt with by the High Court on review of returns.

Column 12.—Duration of appeals, applications for revision, or reference should be calculated thus—

(1) Appeals from date of receipt in office of the petition of appeal;

(2) Applications for revision—from the date of application;

(3) Cases dealt with by the Court otherwise than on application—from date of the order calling for the records; and

(4) Cases sent to the High Court by lower Courts for revision—from the date of the order from the Court making the reference.

General.—Persons whose appeals were rejected under section 421, Criminal Procedure Code, should be entered in column 4, in which should also be included applicants for revision whose cases the Courts have refused to submit to the High Court. In columns 5 to 10, should be shown, opposite the sub-heads for Magistrates of District and Courts of Sessions, persons whose cases were disposed of by those Courts without reference to the High Court, and in column 11 all persons whose cases these Courts referred to the High Court.

* The percentages required for 2 (a), 2 (b), 2 (c) are to be calculated from the figures given in columns 2a, 2b, 2c, respectively, of General Table IV.
 † The annual cost is calculated on the direct expenditure only. The average cost of educating each pupil is obtained by dividing the direct expenditure by the average number on the rolls monthly during the year.
 ‡ The average cost of each pupil in Local Fund and Municipal Schools is to be obtained from the figures given in General Table VII.
 § Fractions of a rupee should be omitted, except in the columns showing the average annual cost of educating each pupil.

N.B.—The headings prescribed by the Government and not required for this district have been omitted.
